

UVS 42

UVS 42 is a transportable screening system, designed with the highest level of efficiency. The screening takes place on two screening levels, and on three sections, ensuring a quick and efficient classification of the different materials.

ELECTRIC DRIVE

1 Screen

Model: CVV042

Surface: mm 1200 x 3500

Screen decks: 2

2 Main conveyor

Width: mm 800

3 Finesize conveyor

Width: mm 800

4 Midsize conveyor

Width: mm 500

5 Oversize conveyor

Width: mm 500

6 Electric drive

Supply: 32 kW

FEATURES

- Ability to process wet materials
- High wear resistance
- Low emissions and acoustic pollution

OPTIONS

- Feeding hopper
- GPS
- Belt scale
